## About Us

Since 2010, Istanbul-based TeksPro has operated with the vision of becoming “a textile bridge from Istanbul to the world.” With its founder’s 27 years of experience and an expert team, the company produces promotional textiles and workwear in its modern 1,400 m<sup>2</sup> facility located in Ümraniye.

From the day it was established, Teks Pro has aimed to be a reliable solution partner for institutions in the field of textiles.

We develop fabrics, colors, and designs tailored to each company’s corporate identity, offering bespoke products that integrate seamlessly with their logos. Prioritizing quality, aesthetics, and trust throughout our production processes, we ensure customer satisfaction at every stage.

Our brand places quality and ethical values at the core of its production philosophy. Our products are manufactured in compliance with EU standards and certified with national and international documents. With our transparent, responsible, and sustainable production approach, Teks Pro has become a trusted business partner in the sector.

Aligned with our sustainability principle, we adopt an environmentally and socially responsible production model. By using fabrics that meet international environmental standards, we implement eco-friendly production processes and uphold our responsibility to operate as a brand respectful to nature.

Combining quality and aesthetics in its production approach, Teks Pro aims to be a reliable, innovative, and sustainable brand in both domestic and international markets. With our vision of “tailor-made textile solutions for your company,” we continue to create distinctive designs for the textile world of the future.

# Custom Design and Production for Your Company

As Teks Pro Promosyon Tekstil Ürünleri San. ve Tic. Ltd. Şti., we have been bringing together quality, reliability, and aesthetics in the textile sector since 2010. With over 27 years of industry experience, our expert team, and professional production staff, we provide tailored solutions for institutions in the field of workwear. By considering each company's corporate identity, operational scope, and working conditions, we develop unique designs. Throughout this process, we prioritize functionality, durability, aesthetics, and brand identity.

## Production in Line with Quality and Safety Standards

At Teks Pro, all our production processes are carried out in accordance with EU standards. We use internationally certified fabrics as well as functional and eco-friendly materials. By working with water-repellent, flexible, breathable, and highly durable fabrics, we ensure both safety and comfort. Quality control procedures are applied at every step to guarantee a reliable and high-quality production process.

## From Design to Mass Production

At Teks Pro, the process from design to production is managed with a professional approach. Customer requirements are analyzed first, followed by the development of various design alternatives. A sample of the approved design is produced and tested before moving on to mass production. Thanks to our wide size range, fast production capability, and modern facility infrastructure, deliveries are completed accurately and on time. As Teks Pro, we take pride in offering workwear solutions that combine quality, aesthetics, and durability while reflecting the corporate strength of your brand.

## HOW YOUR CUSTOMIZED WORKWEAR IS CREATED

- We analyze your company's needs and industry requirements.
- Based on this analysis, we develop custom design alternatives.
- We produce a sample of the approved design.
- After product approval, we proceed to mass production.
- We perform thorough quality control and deliver your products flawlessly.

### **High-Quality, Safe, and Work-Appropriate**

TeksPro prioritizes quality, safety, and functionality throughout its production processes. All raw materials are carefully selected based on technical properties such as durability, flexibility, water repellency, tear resistance, and comfort. By using fabrics tailored to your working conditions, we provide long-lasting and reliable products.

### **Broad Industry Coverage**

TeksPro serves a wide range of industries in the field of workwear and promotional textiles. We provide specialized production for various sectors such as steel, gastronomy, tourism, logistics, petrochemicals, security, automotive, retail chains, and telecommunications. With solutions tailored to each industry, we combine ergonomics, aesthetics, and functionality.

### **Custom Production for Your Company**

TeksPro carries out bespoke production with its experienced design team, meticulously managing every stage from design to delivery. We enhance your professional image with durable, aesthetic workwear that reflects your corporate identity. As your solution partner, we add value through adherence to EU standards and sustainability principles.
